Subject: Project SOTER aka "Volvo" - Request for Modification SAC 2015-0476
[Volvo Permit Modification Request 2-18-16 opt.pdf](#)

Good morning everyone,

A revised plan set for Project SOTER was received in my office requesting a modification of the permit for this project. I have sent a printed copy of the submittal to each of you in the "To" line asking for your comments. This email is to provide you an electronic version as well (and to give you faster receipt than regular mail).

From the cover letter I just mailed you:

"This is in regard to a request to modify Department of the Army permit #2015-0476-SIR issued to Berkeley County on July 9, 2015. A request for modification was received by this office on February 18, 2016, including a narrative describing the revisions and a set of revised plans that show additional wetland impacts.

Please note that Tables 36 and 37 at the end of the plan set provide details about net increase and/or decrease for impacts to wetlands and linear features, and that the net impacts represent an increase of 1.95 acres for wetlands and 0.04 acre for linear features.

Please review the revised project design and provide me any relevant comments on or before March 8, 2016. If you have any questions concerning this matter, please contact me at 843-329-8044 or toll free at 1-866-329-8187."

Thanks for your review and feedback,
Richard
